

HOW WE PROTECT YOUR HEALTH: LABORATORY

Our hospital is dedicated to protecting our patients' and our employees' health.

We have initiated changes to provide safe access to routine testing as well as providing special hours for high-risk patients.

SOCIAL DISTANCING

Our waiting rooms have added space between chairs and have limited the number of people waiting.

Floor markers have been placed to ensure safe social distancing.

ALTERNATIVE HOURS AND LOCATIONS FOR VULNERABLE PATIENTS

Our laboratory is extending hours of operation and adding locations for a safer and convenient patient experience.

SCHEDULED APPOINTMENTS

Appointments are strongly recommended to limit wait times at the main hospital, and are required for 310 Chestnut Street.

ROOM CLEANING

All rooms and surfaces that you encounter will be thoroughly cleaned and disinfected between patients.

HAND HYGIENE AND MASKING

All of our staff will be wearing masks. Upon arrival, you will be given a mask, and will be offered to sanitize your hands to maintain safe infection control guidelines.

BLOOD DRAW LOCATIONS

Main Hospital Laboratory
148 Chestnut Street (ground floor)

- 6:00–8:00am reserved scheduled time for patients 60+ or high risk.
- Call **781-453-3704** or email **BIDN-LabScheduling@bidneedham.org** to schedule an appointment.

310 Chestnut Street

- This off-site location provides lab services M-F by scheduled appointments.
- Call **617-754-0634** to schedule.
- Once you arrive to this location, please wait in your car and call **617-754-0634** to let the Phlebotomist know you have arrived.

Outpatient Clinical Center
148 Chestnut Street

- For patients that already have scheduled clinic appointments in the Outpatient Clinical Center, a phlebotomy draw station is located on the ground floor of this center.
