In fiscal year 2012, we started out on a five-year campaign to raise $6 million. We not only realized our goal, we shattered it. One year early, with your generosity, we raised $7.8 million from over 1,000 donors. Since opening the BID Cancer Center and Surgical Pavilion in 2014, patients in the community have benefitted from over 7,000 surgical cases, nearly 12,000 radiation treatments, over 6,000 hematology/oncology visits and over 6,000 infusions.

Thank you to those listed here who helped give lifesaving surgical and cancer care a home at BID–Needham.

“BID–Needham is a place with a vision, firmly planted in the 21st century, that is tied to some of the best medical care you can find anywhere in the country. I’m proud to be associated with it.”

FRANCIS ANTIN

“Our family has been touched by cancer, and we recall the anxiety and discomfort associated with traveling into Boston for regular treatments. We view the BID–Needham approach of delivering academic-level care, with unmatched compassion and in a tranquil suburban setting, as a tremendous advantage for patients and their families. We also credit the Emergency Department for their bold and decisive medical intervention with one of our four daughters, leading to life-saving care. We place our trust in the hospital and we are so thankful it has been there for us.”

PAUL AND SUSANNE POPEO

“There’s a certain pride in giving to a local institution and knowing that your support is helping that institution grow.”

Improving the quality and safety of care is of the utmost importance to me, and is the foundation of delivering the best possible care to the patients we serve. I know BID–Needham shares that commitment and that’s why I chose to give.

PRISCILLA DASSE

After undergoing surgery at BIDMC, I loved the idea of having the same procedure in Needham, close to home, with uncompromised surgical excellence. David and I wanted to help build a first-class surgical pavilion here in Needham.

VIRGINIA AND DAVID CARNAHAN

“We dedicated our gift to the people of BID more than the institution. Charlie’s care and our many years of engagement as advisors have consistently demonstrated that healing is a team sport. The people of BID have made a real difference in our lives.”
